

Instrumentation

Kempe distributes a range of specialised mechanical instrumentation products for the control and metering of gases and fluids.

Our customised solutions are built from durable material options utilising precision control products.

Our diverse range of products include:

- Pressure Gauges
- Temperature Gauges
- Digital Gauges
- Diaphragm Seals
- Pressure Transmitters
- Valve Manifolds
- DBB Valves and Monoflanges
- Needle and Ball Valves
- Tubes and Fittings
- Air Preparation Equipment
- Precision Flow Meters
- Fluid Metering Systems
- Nitrogen Generation
